

Preventive Maintenance Agreements (PMAs)

Save Money and Instrument Downtime!

Much like an automobile, routine checks and maintenance need to be performed regularly on your laboratory instrumentation to keep them in peak operating condition. That is why we have designed Preventive Maintenance Agreements (PMAs) for select LECO instrument models.

PMAs are a smart, convenient way to help you prevent unexpected downtime and associated costs. With LECO PMAs, trained LECO service specialists perform maintenance checks on your instrument (including cleanings and flow-path rebuilds) on a regularly scheduled basis. One, all-inclusive part number covering routine parts, labor, and travel can be easily purchased and renewed.

- Notes:
- Replacement parts and labor that may be necessary to repair an instrument are **not** included in this package.
 - PMAs conducted outside the contiguous United States will incur additional travel expenses.

Start maximizing your production today with PMAs from LECO. To receive a quote or for more detailed information, please call **269-985-5497**.
